

Transform your business communication with 2talk's Business Phone System.

Featuring the powerful Yealink's SIP-T33G phone.

A classic and cost-effective entry-level business IP phone for daily desktop voice communications, with superior HD audio performance, 5-way local conference function, EHS wireless headset support, and proven integration of Yealink Device Management Platform, the T3 series maximizes productivity and enhances collaboration for businesses of various scales.

- **Crystal-clear calls:** experience HD voice technology for enhanced call clarity, ensuring every conversation sounds professional and smooth.
- **Reliable connectivity:** with robust VoIP capabilities, enjoy seamless, uninterrupted calling powered by 2talk's reliable network.
- **Easy-to-use interface:** the Yealink SIP-T33G comes with an intuitive 2.4-inch color display, making it simple to manage calls, voicemails, and more.
- **Simplified setup:** powered by 2talk's Device Provisioning, the T33G phone is easy to set up and connect.

Flexible, easy-to-use phone system.

Take full control of your numbers with high-value features powered by 2talk's Cloud PBX. Enjoy the freedom to set up an advanced business phone system on your own, while our award-winning excellent customer support is here to help you.

Manage calls efficiently with features like call transfer, hold, auto attendant, music on hold, voicemail transcription, and so much more. Should you find yourself away from the office and your Yealink, take your calls and numbers anywhere with our mobile app for iOS and Android.

More products from 2talk:

- **Faxing:** get set up with a virtual fax number so you can ditch your machine once and for all, sending and receiving faxes on your email
- **FLIP™ POTS Replacement:** upgrade existing analog phone infrastructure in your premises without the costs of replacing it all and say hello to the future
- **MS Teams Direct Routing:** enable calling on Microsoft Teams without the need for expensive phone licensing, and couple it with 2talk's feature-packed phone system
